EXAMINER'S AMENDMENT

Examiner's Note:

1. In the last amendment of 12/19/2005, the US serial number of the application is incorrectly identified as 10/775,876 in the header section. Fortunately, as the cover sheet had the correct US serial number as **10/775,847**, these papers were entered in the correct application.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gregory Welte on 3/30/06.

The application has been amended as follows:

- Claim 7, last paragraph, line 3 "cable," has been deleted.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: the prior art of record do not fairly teach in permissible combination the claimed invention, in particular the limitations of the last full paragraph of each of the independent claims with the rest of the claim limitations. The detector of the prior art is focused on detecting signals in the conductor of the cable, and by removing the cable from claim 7, distinguishes over the art

of record. In a telephone conversation with Mr. Welte, a terminal disclaimer was requested in the instant application based on the 10/775,876 application (see the first office action of 09/30/2005). A terminal disclaimer was filed as well as in the narrower 10/775,876 application. Hence the obviousness double patenting rejection has been obviated. MPEP 804.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
